# Progression to next year

**To progress to the next year of study, you need to have fulfilled the academic regulations for your current year of study.**

**Level 5** (second year): You must pass (or achieve a compensated pass in) all modules (120 credits).

**Full assessment regulations and information about reassessment, degree calculation, support, etc. can be found on our website**

# Importance of Attendance

## Recent level 5 data:

- For students with an average grade of 72% and above, modules attendance was an average of 74%.
- Those with an average grade of a third had 39% attendance this year.
- Attendance at lectures and tutorials has a strong correlation to assessment grades.

# **Preparing for reassessment**

# Reflection Time

**It is vital that you utilise feedback when preparing for a reassessment!**

- **Did you read your feedback?**
- **How did you feel about your most recent piece of feedback?**
- **Did you refer back to previous feedback when preparing for an assignment?**
- **Written feedback is usually available via Turnitin. Click the pencil icon to access this**

# Reacting to Feedback

**You might feel upset or disappointed when you receive a grade. This is okay! Take some time to process those feelings.**

**If you are confused about the grade/feedback, make sure you reach out to your tutor to help you to understand it, so that you can use it to move forward.**

**If it is helpful to you, talk to a friend or peer about it. Good friends often help to put things into perspective 😊**

# Interpreting Your Feedback

- **Are there any common themes?**
- **What were the strengths in your work?**
- **What were the key areas for improvement?**
- **Did you address the (whole) assessment criteria?**
- **Were any issues major or minor?**
- **Major issues – (lack of) evidence, argument, structure, analysis**
- **Minor issues – spelling, grammar, punctuation, consistency**

# Remember....

**Receiving feedback is an important part of your development while at university. Although it may evoke negative feelings, try to remember its purpose...**

**Improvement**

**Achievement**

**Learning**

**Reassessments are an opportunity to demonstrate academic and personal growth!**

# If you didn't submit an assignment

**Identify** what prevented you from submitting work.

**Did you not fully understand the assignment brief?**

**Did you struggle to complete it alongside other commitments, e.g. employment or other responsibilities?**

**Utilise any feedback** you've received previously if it highlights something related to your work in general, e.g. writing style, choice of references, etc.

**Don't hesitate to reach out** to your module leader, tutor, Programme Support Team, or the Study Skills team for support – we are here to help!

# Action Plan

- Focus – **decide on key areas for improvement**
- Resources – **access relevant sources of info and support**
- Actions – **attainable goals in a realistic timeframe**
- Motivation – **your overall goal/inspiration**

# Submitting reassessments in Moodle

**When uploading work for a reassessment, ensure that you use the correct submission point in Moodle! It should clearly state it is for a reassessment, e.g.**

1CWK100 - 1 Advanced Proposal 100% (  ) (Reassessment)

**If you are unsure about which submission point to use, contact your tutor in plenty of time before the deadline.**

**Note: Self-certified extensions are not available for reassessments.**
